

2013 BEAM dinner and AGM

*with three short presentations from
special guest Leigh Ewbank of Friends of the Earth along with
BEAM members Cynthia Lim, Linda Kennedy and Peter Mitchell*

It's been an active year for BEAM. We wanted to give our guests a taste of three different areas that we are involved with. Our guest speaker, Leigh Ewbank will speak on renewable energy in Victoria - policy, activity and campaign responses. Cynthia and Linda on local and bulk foods, and Peter Mitchell will discuss progress on the Mt Piper Biolink.

Along with that line up, Peter Lockyer will summarise our activities for the year and inviting our members to consider joining the new committee. Please bring something special to add to our raffle and door prize - let's make it the best one yet!

With the great feedback we got from the format of last years AGM dinner we couldn't resist doing it again. We are inviting guests to bring their own drinks and food to share made from as many local ingredients as possible. Some local produce suppliers can be found on the BEAM website beam.org.au, let us know if you find more so we can share them.

***BYO drinks and dinner (or dessert) to share
